RAFAEL CASTILLO

AI ENGINEERING MANAGER | AI PRODUCT ENGINEER

rafaelcastilloac89@gmail.com | linkedin.com/in/rafaelcastillocreative | github.com/rafatoski

PROFESSIONAL SUMMARY

AI Engineering Manager and product-minded software professional with a background spanning AI engineering, full-stack development, UX/UI, and product design. Leads AI engineering teams and connects technical strategy with practical delivery across intelligent products, agentic workflows, business automation, API integrations, and human-centered interfaces.

CORE SKILLS

AI & Automation: OpenAI API, AI agents, agentic workflows, n8n, webhooks, workflow automation

Engineering: JavaScript, TypeScript, React, Vue, HTML, CSS, PHP, REST APIs, authentication, databases

Product & Design: Product strategy, UX/UI design, prototyping, design systems, accessibility, Figma

Leadership & Delivery: Team leadership, technical strategy, cross-functional collaboration, deployment workflows, GitHub Actions

PROFESSIONAL EXPERIENCE

AI Engineering Manager

Xperience Marketing Solutions (XMS) | 2025 - Present

- Manage and lead the AI engineering team, guiding technical strategy, collaboration, and product delivery.
- Design and build applied AI products, agentic workflows, business automations, and internal tools.
- Connect AI services with APIs, authentication, databases, webhooks, CRM workflows, and deployment pipelines.
- Apply product design and full-stack engineering to create reliable, usable, human-centered AI systems.

Design & Engineering Manager / Product Designer / Full-Stack Developer

Alaska Tech | 2024 - 2025

- Led cross-functional design and engineering teams, coordinating product strategy and delivery.
- Connected product design decisions with frontend and full-stack implementation across digital products.
- Supported scalable user experiences through prototyping, interface design, development, and technical collaboration.

UX/UI Front-End Developer

Sell2Rent | 2023 - 2024

- Designed and implemented responsive product interfaces in collaboration with a remote, cross-functional team.
- Translated UX/UI requirements into production-ready frontend experiences for a real-estate technology product.

Senior UX/UI Designer

Indeed.com | 2022 - 2023

- Contributed senior UX/UI expertise to product experiences, balancing user needs, visual clarity, and implementation considerations.

Designer / Front-End Developer

BingeWave | 2021 - 2022

- Translated product vision into responsive interfaces and frontend implementations for a digital video platform.
- Collaborated directly with product leadership and developers to improve visual quality and performance.

Senior Graphic Web Designer

Web4Realty | 2018 - 2021

- Delivered web and visual design work for real-estate products while contributing to team culture and client-facing quality.

Web Designer

ZNetworks Group | 2015 - 2017

Digital Graphic Designer

eSmart Digital | 2014 - 2015

SELECTED PROJECTS

Dress in Person: Mobile-first browser dress-up game; product design and frontend development.

Draft Animal Arena: Responsive 3v3 browser auto-battler; game interface and web implementation.

TravelKit: Product design, UX/UI, and frontend development for a travel technology platform.

Heraldos del Evangelio: Design, development, and digital marketing strategy.

EDUCATION

Full-Stack Development | Enyoi Online School

Audiovisual & Multimedia Production | Jorge Tadeo Lozano University

Multimedia Production | SENA Colombia

PROFESSIONAL FOCUS

Applied AI systems, AI-powered web products, intelligent lead generation, client onboarding, CRM integrations, workflow architecture, product strategy, and scalable user experiences.
